-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Humphrey (604).

Humphrey (604) discloses a device comprising:

- | | |
|---|----|
| a) a recoiling mass; | 16 |
| b) a fixed cradle; | 18 |
| c) at least one electrical connector; and | 61 |
| d) a plug and socket. | 61 |

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Campbell (278).

Campbell (278) discloses a device comprising:

- | | |
|---|-------------------------|
| a) a recoiling mass; | 22 |
| b) a fixed cradle; | 24; col. 1, lines 52-54 |
| c) at least one electrical connector; and | 70, 102 |
| d) a plug and socket. | 70, 102 (see fig. 1) |

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Marcon (021).

Marcon (021) discloses a device comprising:

- | | |
|---|--------|
| a) a recoiling mass; | 14 |
| b) a fixed cradle; | 12 |
| c) at least one electrical connector; and | 20, 22 |
| d) a plug and socket. | 20, 22 |

Art Unit: 3641

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Meyer (812) in view of Greenlees (932).

Meyer (812) discloses a device comprising:

- | | |
|---------------------------------------|--------|
| a) a recoiling mass; | 13 |
| b) a fixed cradle; and | 12, 15 |
| c) at least one electrical connector. | 26, 50 |

Meyer (812) applies as recited above. However, undisclosed is an electrical connector that is a plug and socket arrangement. Greenlees (932) teaches an electrical connector that is a plug and socket arrangement (51, 62). Applicant is substituting one type of electrical connector for another as explicitly encouraged by the secondary reference (see Greenlees (compare figs. 1 and 2)). It would have been obvious to a person of ordinary skill in this art at the time of the invention to apply the teachings of Greenlees to the Meyer device and have a device with a different type of electrical connector.

7. Claims 2-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3641

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen M. Johnson whose telephone number is 571-272-6877 and whose e-mail address is (Stephen.Johnson@uspto.gov). The examiner can normally be reached on Tuesday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Carone can be reached on 571-272-6873. The Central FAX phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 800-786-9199.
